

Cloud-Based Service

Lifesize®

CALLING

Support for both direct and “meet-me” calls

- Directly call any contact, room system or meeting for instant collaboration
- Create and schedule meetings using:
 - Lifesize for G Suite add-on for Google Calendar™
 - Add-in for Microsoft® Outlook® 2013+
 - Any ICS compatible calendar
- Email-based dialing support
- Dial out to any IP address or URI
- Every contact and meeting is reachable by IP address, URI or telephone number

MEETINGS

- Permanent meetings for regular team communications
- One-time meetings for nonrecurring events
- Full-screen presenter mode
- Moderator tools
- Optional security passcode
- Configurable layout options
- Each meeting supports up to 500 active participants

AD HOC GROUP CALLS

Create a group call by simply adding another person to your call—no need to hang up and dial a bridge or meeting (Feature available on the Lifesize app and Lifesize® Icon™ room systems)

UNLIMITED GUEST CALLING

Anyone can join your call from the full-featured web app (Google Chrome), desktops (Windows®, Mac®), mobile devices (iOS, Android™), or a video conferencing system

TELEPHONE SUPPORT

Local telephone numbers in 60+ countries—provides dial-in support to all contacts and meetings

AUTOMATICALLY POPULATED DIRECTORY

- Lifesize simplifies dialing your contacts. You no longer need to dial long IP addresses because every Lifesize app and Lifesize Icon room system comes with a prepopulated search-based directory—simply select the entry you wish to call.
- Add existing room systems to the shared directory

PRESENCE

Presence indicators let you see at a glance whether the person you want to reach is available

MANAGEMENT AND REPORTING

- Browser-based admin console
- Centralized management of Lifesize account and room systems
- Live and past meeting statistics
- Usage reports and notifications
- Multiple account manager support

LIFESIZE APPS

The Lifesize app is available from browsers (Firefox®, Internet Explorer® 11, Safari®), full-featured web app (Google Chrome, Microsoft Edge™), desktops (Windows, Mac) and mobile devices (iOS, Android):

- Prepopulated search-based directory with presence support
- Meetings directory
- One-on-one chat and group chat in a meeting
- Audio plus screen sharing (web conferencing mode)
- Favorites and Recents lists
- Automatic software updates
- Supports direct media for point-to-point calling between Lifesize clients and Lifesize Icon room systems

LIFESIZE LIVE STREAM

- Live stream meetings to up to 10,000 viewers
- Enable any of your Lifesize meetings for simultaneous live stream events
- Set viewing permissions for secure live streaming
- Easy set up and reporting via the admin console
- Copy embed code to add live streams to your website
- Real-time Q&A¹
- Watch from a variety of browsers and mobile devices

LIFESIZE RECORD AND SHARE

- Full HD-recorded content automatically organized into channels
- Configurable permissions, including automatic access for meeting participants
- Recordings Feed, My Recordings, Watch List
- AES-128 encryption data-in-flight and AES-256 data-at-rest
- Downloadable MP4
- Record from any Lifesize app-enabled device
- Playback on any device

LIFESIZE SHARE™

- Present from any laptop using your web browser and share your screen, files or online media
- Launch Lifesize Icon room systems remotely and join meetings from your phone
- Enhance your meeting room experience with:
 - Digital signage
 - Whiteboard collaboration

LIFESIZE ICON ROOM SYSTEMS

Award-winning video conferencing equipment for rooms of all sizes — including a revolutionary new line of 4K systems

- Supports connection and automatic configuration to your Lifesize account and automatic software updates
- Lifesize Icon Health Monitoring: Real-time alerts can be sent to a dedicated inbox
- Meeting room control with Lifesize® Phone™ HD

Calendar Integration

- One-tap join for Lifesize and Amazon Chime meetings scheduled via Microsoft® Office 365®, G Suite or Microsoft® Exchange Server 2013 or 2016 calendar
